

Get your faculty up to speed with Online Facilitation Training.

An interactive and engaging workshop series delivered to your faculty.

University Partnerships Online Faculty Professional Development Program can:

Increase student engagement

Lower faculty anxiety and stress

Improve online course quality

Instill career-long facilitation skills

Key Benefits

- Courses covering course design, facilitation, and advanced facilitation available.
- Courses will give faculty proven methods and resources for success with hands-on authentic activities throughout the workshops.
- Workshops are designed and facilitated by professional online educators.
- Additional “Office Hours” are available for specific questions and needs.
- Flat fee; no hidden costs!

How it Works

Institution Administrators: choose your course and complete a Memorandum of Understanding (MOU). Then select your faculty and staff participants.

We: create a course section with a Canvas LMS course specific for your faculty. That includes a facilitator and co-facilitator for the synchronous sessions.

Your faculty and staff: participate in 8 workshops over a 4 or 8 week period, completing exercises and a final demonstration of learning.
